IN 3 MONTHS
DIPLOMA IN
CYBER SECURITY**

IN COLLABORATION WITH

EC-Council
Building A Culture Of Security

WHY

CYBER SECURITY?

- Cybersecurity is one of the most promising career paths in today's digital world, offering job security, competitive salaries, and endless opportunities for growth. In India, the cybersecurity industry is projected to grow to \$35 billion by 2025, generating over 1 million job opportunities. The demand for skilled professionals is soaring, with entry-level roles like penetration testers earning ₹11.8 lakh per annum and cybersecurity analysts making ₹6.9 lakh per annum.

Major companies like TCS, Infosys, Wipro, and HCL are actively hiring cybersecurity experts, making it a lucrative and future-proof profession.

OUR PROCESSING OF **LEARNING**

6 MONTHS OF CLASSROOM TRAINING

The Regular Training Centres Get An "F" For Teaching. Hundreds And Thousands Of Graduates Complete Their Course Without The Practical Skills Needed To Succeed. We Have Filled The Gap By Creating A Course Where People Get An Opportunity To Work On "Live Clients". Once People Complete Their Course They Are Made To Work On Our Live Project Under The Guidance Of A Project Manager.

PROJECT BASED INTERSHIP

Freelancers Academy Digital Marketing Course Provides Agency-based Training, Which Gives The Student Exposure To How It Feels To Work In An Agency. This Makes You Digital Marketing Industry-ready. You Will Learn All The Aspects Of Working In An Agency, From Working In Teams To Creating A Proposal.

JOB PLACEMENT

You Will Be Provided With Placement Opportunities In The Same. Our Online Digital Marketing Course Not Only Trains You In Digital Marketing But Also Trains You To Crack The Interviews And Helps You Find A Place For Yourself In The Digital Marketing World.

STUDENTS TESTOMINALS

Ayesha Patel

IT Support Professional

"As an IT support professional, I've always been interested in cybersecurity but struggled to find the right course. Freelancers Academy's job assurance program helped me land my first role as a cybersecurity analyst. The hands-on labs and mentorship from industry experts were invaluable"

Harsh Gupta

Computer Science Graduate

"I recently graduated in Computer Science but wanted to specialize in cybersecurity. The EC-Council CEH Practical Certification integrated into the program gave me an edge over other candidates. The practical knowledge I gained through iLabs and the guidance from mentors helped me land my first cybersecurity job!"
